RAC Update:

Myrla Sproat said each Council had a bottle of the “official” water given out at the ribbon cutting. Ms. Sproat thanked the Council again for phase I coming about. Ashland City can be known as the “doers”. A

large portion has been completed. We don't know when the next grant will be given but the grant application request has been turned in on time. Ms. Sproat said she is sure everyone travelling up and down Main St is happy for the break in construction.

Michelle Ingram Jones known as Midge – 1520 Lockertsville Rd- wanted to know what dept. would be responsible for maintenance on the plants and trees. Midge advised now that the trees and shrubs are in she would develop a plan of care for them and wanted to know what dept. to go to especially watering in the spring which should start in March. Mayor advised that Tony's dept does not have the man power so it will have to be Thomas's dept. Midge replied she will watch for infestation and fertilization and that she would take care of that herself. Also, she advised the grates are usually treated and these are already rusting which will go into the root ball of the trees. Mr. LaCrosse said he asked Chris Hall that and was told that it would shortly turn green; you call that a patina and that would be the coating. Midge said she would do research and to see what needs to be used to coat the grates. Ms. Jones had one more question – which dept will be responsible for emptying the trash receptacles. Mayor replied Tony's dept. will handle the trash.

Mayor said on the water tank contract we are still waiting for the cost.

The City Recorder went over the water fund equity and explained the three options the Council has relative to this matter as far as the general fund. The options are: 1. let the water fund take a loss. 2. The general fund can rent the additional portion for codes and then nothing would need to change as the water fund would still be in control of their share. 3. The water fund owes the general fund money we could use this to pay off the debt and general fund would only owe the balance. After a discussion the Council wanted further information and it was decided that it would go to the budget committee. The City Recorder to find out if this is 100% equity or the portion to be paid back.

Budget amendment on Tyler software - Chief Coulon was not in attendance and the recorder's office did not have the information needed, this will be brought up again next month.
